INTERNSHIP EXPERIENCE

Full Stack Intern: NirveonX

📅 April 2025 – Present

- Developed a responsive landing page and chatbot interface for the Pet-AI using React, Next.js, and Tailwind CSS.
- Built and integrated real-time voice and video calling functionality to enhance user interactivity, collaborating with the UI/UX design team using Figma, translating mockups into scalable code, and improving user engagement by 30%.

AWS Intern: BrainOvision Solutions Pvt. Ltd.

📅 July 2022 – August 2022

- Configured and deployed AWS S3 and EC2 instances for high-availability internal applications.
- Assisted backend teams to optimize API performance, minimize latency, and ensure cloud infrastructure reliability.

PROJECTS

Pins Studio Web Application ↗

(Django, MySQL, HTML, CSS, Python, JS, Unsplash API)

- Developed Pins Studio, a Pinterest-style platform, with secure authentication, dynamic pin rendering, infinite scrolling using Masonry.js, Unsplash API for pins, RESTful API with CRUD operations, and responsive navbar with animations, using Django and Bootstrap.
- Implemented scalable media uploads and user profile management with MySQL, ensuring robust data security with secure OAuth 2.0 authentication.
- Designed responsive templates for pin creation and profiles, optimizing routing via Django's MVT architecture.

Python Compiler Web Application ↗

(Django, CodeMirror, HTML, CSS, JS, Python)

- Developed an online Python code editor and compiler, enabling code input/output with secure execution.
- Designed a mobile-responsive interface with error handling and isolated environments for seamless user experience.

CERTIFICATIONS / TRAININGS

- **Cyber Security and Privacy** from **NPTEL** – Digital Security, Malware, Password Security, Threat Protection
- **Python Basics** from **HackerRank** – Scalar Types, Control Flow, Strings, Collections, Modularity, OOPs
- **IT Essential: PC Hardware and Software** from **CISCO Networking Academy**

LEADERSHIP

- Led a team of 3 developers at NirveonX to design and implement real-time voice and video communication features in chatbot platforms, reducing latency by 20% and improving user satisfaction by 35% across devices.
